The Construction Association of Nova Scotia is proud to present CANSTech - The Construction Technology and Innovation Trade Show for the commercial, industrial and institutional construction industry.

CANSTech will unite exhibitors, sponsors and world-class speakers to showcase new technologies, upcoming trends and innovative products all under one roof.

Tweet your photos from the show floor and speaker presentations using #CANSTECH

On behalf of the Construction Association of Nova Scotia, welcome to CANSTech - the Construction Technology & Innovation Trade Show for the commercial, industrial and institutional construction industry.

We are excited to bring you some of the world's best technology, equipment, applications, software, machinery, and services so you can feel it, experience it and see what the world has in terms of innovation and technology for the construction industry. Our goal is to help build your company's business and technology is one of the best ways for you to compete on a local and international scale.

Thank you to our exhibitors and sponsors who have made CANSTech happen - we're excited for you to showcase the latest and greatest in terms of technology and innovation.

Duncan Williams
President
Construction Association of Nova Scotia

At Procore Technologies, we are very excited to be the presenting sponsor for CANSTech 2018 where we share an amazing opportunity with the many exhibitors joining us to share our innovations with the Atlantic Canada construction community so that together we can build a stronger and better industry for all.

As a member, we are also very proud of the Construction Association of Nova Scotia for their vision and execution of this much needed industry gathering on a vital subject for our industry. At Procore we believe that technology has the ability to transform our industry and assist in resolving many of the issues that affect us today.

So together, we look forward to an amazing event, for the opportunity to learn from each other and the privilege of meeting new industry colleagues.

Jas Saraw
Vice President, Canada for Procore Technologies

DETAILS

Exclusive Welcome Reception for CANSTech exhibitors and sponsors (invite only).

Message from Welcome Reception Sponsor, **rsc construction**:

"Every day at rcs construction our team strives to be the BEST contractor, the BEST place to work and the BEST choice for your business! To be the BEST you need to understand that technology is moving at a scary fast pace and if you don't embrace it, you're not only going to be late for the party, you're going to miss it! Great on CANS to understand the importance of innovation and technology in our industry and rcs is glad to be a partner for the inaugural show!"

Andrew Doucet
rcs construction

Real estate and construction is fast paced and dynamic — there's an energy and at the centre is the desire to build something better. At MNP we continuously strive to create innovative programs and scalable solutions that help you capture that momentum. Big or small, we know it's not about size — it's about quality, value and, above all else, the opportunity to build something you can truly be proud of.

For more information contact Kirk Higgins, Regional Managing Partner, Atlantic Canada, at 902.493.5452 or kirk.higgins@mnp.ca

Time

8:30 AM

The Future is Now - How Today's Tech is Disrupting the World's Oldest Industry
Keynote Speaker: James Benham, JBKnowledge

11:00 AM

The 5 Workflows Every Contractor Should Optimize with Mobile Apps
Speaker: Rob McKinney, JBKnowledge

1:00 PM

The Construction Technology Ecosystem: Selecting and Integrating the Best Solutions for Your Projects
Speaker: Jeff Sample, JBKnowledge

2:45 PM

Construction Innovation Panel Discussion
Moderator: Trent Soholt, Nova Scotia Construction Sector Council
Panelist: Jean Léger, Industrial Research Assistance Program (IRAP)
Panelist: Jas Saraw, Procore Technologies
Panelist: Dr. Ivanka Iordanova, Pomerleau
Panelist: Jamal Mohammed, SITECH Mid-Canada

SURVEY & DIMENSIONAL CONTROL

“We don't stop at dimensions & drawings - our surveyors think in terms of solutions.”

CRUCIAL COMPONENTS FOR
BIG PICTURE PROJECTS

Supported in part by the National Research Council of Canada Industrial Research Support Program (NRC IRAP).

Keynote: The Future is Now - How Today's Tech is Disrupting the World's Oldest Industry

James Benham, JBKnowledge

Bio: With extensive experience in the design, development and use of technology to improve efficiency, James is a sought-after speaker across the United States, Canada and abroad on business information technology, data security and innovative technology solutions for the construction industry.

The 5 Workflows Every Contractor Should Optimize with Mobile Apps

Rob McKinney, JBKnowledge

Bio: Over the past decade, Rob has managed safety, quality and training programs with a focus on mobile applications and device usage on construction project sites.

The Construction Technology Ecosystem: Selecting and Integrating the Best Solutions for Your Projects

Jeff Sample, JBKnowledge

Bio: Jeff has devoted the past 19 years to transforming companies through technology by educating others on the value of a secure and thriving IT ecosystem. Jeff's signature technology solutions place emphasis on functionality and fiscal responsibility.

Construction Innovation Panel Discussion

Trent Sohlt, Nova Scotia Construction Sector Council (Moderator)

Bio: Trent is the Executive Director of the Nova Scotia Construction Sector Council-ICI (NSCSC) - a not-for-profit organization that partners with industry stakeholders to provide human resource solutions and labour market information for Nova Scotia's industrial, commercial and institutional construction sector. Working with contractors, labour organizations, training providers, stakeholders and government, Trent fosters collaboration, supports innovative approaches to training, career awareness, industry research, strategic planning and encourages advances in technology adoption.

Jean Léger, Industrial Research Assistance Program (IRAP) (Panelist)

Bio: Jean is the Industrial Technology Advisor, Atlantic & Nunavut for the Industrial Research Assistance Program (IRAP). He works with client firms to improve their innovation capability by providing advice on technology and the innovation process leading to improved competitiveness, productivity and profitability. He is a civil engineer with municipal and heavy construction management experience and has worked as an Industrial Technology Advisor since 1998.

Jas Saraw, Procore Technologies (Panelist)

Bio: Jas is Vice President, Canada for Procore Technologies, the world's most widely used construction management software. Passionate about innovation and the construction industry, he has over 17 years of technology leadership experience specializing in SaaS, ERP, CRM, Financial, E-Commerce and Content solutions. Working with his team and through his interactions with construction companies across Canada he brings a unique understanding and viewpoint of construction technology as it applies and is being applied practically coast to coast.

Dr. Ivanka Iordanova, Pomerleau (Panelist)

Bio: Dr. Ivanka Iordanova, CanBIM-CP, is a diplomaed architect and has a PhD from the Université de Montréal. She spent numerous years in academia teaching and contributing to research related to digital media, building performance and BIM. After a post-doc at the ETS, she integrated Pomerleau. Now, as Innovations and VDC Director, she is leading a team of >30 people across Canada. She actively works for innovation, collaboration and better productivity and quality in the construction industry through the adoption of new technology.

Jamal Mohammed, SITECH Mid-Canada (Panelist)

Bio: Jamal Mohammed, Director of Sales and Professional Services of SITECH Mid-Canada with responsibilities including the management of sales and support staff, while excelling in the ability to build customer relationships on multiple levels, and outline and implement sales and marketing strategies for continued growth. Jamal is a Civil Engineering Technologist, with thirty-one years of transforming and aligning computers and computerization in the core competencies of the Canadian heavy civil industry.

Abatement Technologies

Booth #: 3

Category: Innovative Projects

Bio: Abatement Technologies is a Canadian manufacturer of air filtration and dust containment solutions. Along with our equipment we also sell a complete line of PPE, Fall Protection, Consumable, and Chemical supplies.

ABTECH Surveying Equipment

Booth #: 42

Category: Machinery/Equipment/Robotics

Bio: In the last 20 years, ABTECH has specialized in the distribution and support of machine control and construction surveying instruments. We offer state of the art solutions with innovative technological advancements from our supplier, Leica Geosystems.

AeroVision Canada Inc.

Booth #: 15

Category: Drones/Scanning

Bio: Award-winning Commercial Drone Operation Professionals for inspection, survey, training & consultation services. Our core focus is inspection, survey grade mapping, 3D modeling and thermal imaging of high-value assets.

AON

Booth #: 51

Category: Cutting-Edge Products for Construction

Bio: Aon offers risk advisory and consulting services. We design, structure and implement solutions that involve traditional insurance or risk-transfer programs, alternative financing techniques, or entirely new products to address a specific problem.

Arrow Construction Products

Booth #: 10

Category: Cutting-Edge Products for Construction

Bio: Arrow Construction Products Ltd. is a distributor for specialty construction products, servicing Atlantic Canada for the past 40 years. Our philosophy is to offer quality products solutions for Design and Construction.

BDC

Booth #: 40

Category: Innovation and Technology Funding

Bio: BDC is the only financial institution devoted exclusively to entrepreneurs. We help create and develop strong Canadian businesses through financing, advisory services, and capital, with a focus on small and medium-sized enterprises.

BIRD Construction

Booth #: 29

Category: Prefabrication

Bio: Bird is always at the forefront of new technologies and building systems. With offices in Halifax, Moncton, Saint John and St. John's, Bird is committed to be your local general contractor that can tackle projects of all sizes and complexities.

Bird Stairs

Booth #: 34

Category: Cutting-Edge Products for Construction

Bio: Bird Stairs / J.W. Bird and Company Ltd. is celebrating 60 years in business serving the construction industry in Atlantic Canada since 1958. We constantly strive to source the newest, most innovative products our manufacturers have to offer.

Brandt

Booth #: 67

Category: Machinery/Equipment/Robotics

Bio: Brandt Positioning Technology is the largest construction, survey/engineering/GIS technology business in Canada, and is the exclusive Topcon Dealer for Western and Atlantic Canada.

Canada Green Building Council

Booth #: 38

Category: Green Construction

Bio: CaGBC is the leading national organization dedicated to advancing green building and sustainable community development practices. CaGBC reduces environmental impacts from the built environment through project certification, advocacy and research.

CANS Workforce Development

Booth #: 60

Category: Industry Program

Bio: CANS Workforce Development provides information and opportunities to invest in the professional development of the current and perspective industry workforce. Building Futures for Youth, Industry Education and Lean

Construction will be highlighted.

CarbonCure Technologies Inc.

Booth #: 31

Category: Cutting-Edge Products for Construction

Bio: CarbonCure manufactures a technology that introduces recycled CO2 into fresh concrete. Concrete producers benefit from improved operations, while offering designers and developers the ability to reduce the carbon footprint of their building projects.

Carlisle Syntec

Booth #: 9

Category: Specialized Products

Bio: Carlisle is the leader in the roofing industry for more than 50 years. It continues to lead the roofing industry today by providing its customers with superior roofing systems and services. With more than 19 billion square of roofing sold.

CFM Services

Booth #: 7

Category: Drones/Scanning

Bio: The CFM Survey Division is utilizing some of the most advanced technologies in terms of 3D laser scanning and Drone Works. We can perform both interior and exterior inspections, or create true to life 3D models of existing features.

CIMCO

Booth #: 4

Category: Construction Management/Project Management Tools

Bio: Cimco Refrigeration is a market leader in design, engineering, fabrication, installation and servicing of industrial and recreational refrigeration systems - food and beverage, recreation, process industries, cold storage, fishing, and dairy.

CNIB Foundation Nova Scotia

Booth #: 48

Category: Industry Program

Bio: CNIB is a charitable organization in its 100th year, we are proud to begin our second century. The CNIB Foundation Nova Scotia relies on donations to fulfill the mission. CNIB offers a range of programming to Nova Scotians living with vision loss.

Dexter Construction

Booth #: 53

Category: Cutting-Edge Products for Construction

Bio: Atlantic Canada's premier heavy civil contractor, Dexter Construction offers fully integrated services including excavation, road building and maintenance, aggregate production, asphalt supply and paving, concrete works, demolition and more.

DI5/DIRTT

Booth #: 36

Category: Prefabrication

Bio: DIRTT is a building process powered by technology that is changing the face of construction with industry leading software and advanced manufacturing. Interior spaces are built faster, and more sustainably, while ensuring cost and schedule certainty.

Duron Atlantic ft. Hydrotech

Booth #: 22

Category: Green Construction

Bio: MM 6125 has been manufactured since 1963, it is used mostly on protected membrane assembly; plaza deck, vegetated roof, waterproofing. The longevity of 6125 is equal to design life of structure. 6125 is made of 40 % post consumer recycle material.

EcoPilot

Booth #: 28

Category: Specialized Products

Bio: EcoPilot is an innovative software system that integrates with building management systems to reduce energy costs by up to 40%, reduce greenhouse gas emissions and improve internal climate.

Efficiency Nova Scotia

Booth #: 27

Category: Smart Construction

Bio: Efficiency Nova Scotia is Canada's first energy efficiency utility. Working with more than 150 local partners, we've helped 400,000 program participants complete energy efficiency projects, saving Nova Scotians \$165 million in annual energy savings.

GBS Technologies

Booth #: 35

Category: Connected Job Sites/Cloud Technology/Mobile Applications

Bio: GBS Technologies is your all-in-one solution for Mobility & IT. We offer reliable solutions that protect your data & keep you secure, all without interrupting your day-to-day business. From Mobility & VoIP to Fleet & E-logging, we've got you covered!

General Liquids Canada

Booth #: 54

Category: Longer Life Materials

Bio: As an ISO 9001 (quality) and 14001 (environmental) certified organization, General Liquids Canada offers a variety of asphalt products, including asphalt cement, asphalt emulsion, and other binder and coating products.

Harbr Inc

Booth #: 14

Category: Connected Job Sites/Cloud Technology/Mobile Applications

Bio: Harbr connects the field and office to all layers of the client/vendor/contractor chain without interruption. To create seamless real-time collaborative experiences that drive your project to completion faster.

Heritage Gas

Booth #: 32

Category: Safety/Security

Bio: Heritage Gas Limited is a Nova Scotia-based company that operates a full regulation class natural gas distribution franchise in Nova Scotia and are committed to building a safe, viable and accessible natural gas distribution system for all residents.

HomeEXCEPT

Booth #: 49

Category: Innovative Projects

Bio: HomeEXCEPT is a solution for non-intrusive monitoring. Without using cameras, listening devices, or wearables, a loved one can be monitored in a non-intrusive way. Our sensor and app combo detects and displays presence, motion, sound, light, heat.

Ipex Inc

Booth #: 1

Category: Longer Life Materials

Bio: Bionax is a revolutionary PVCO pressure pipe designed for water mains, sewage forcemains, irrigation lines and industrial process piping. Made from Biaxially oriented PVC, Bionax offers all the benefits of conventional PVC plus much more.

Irving Equipment Limited

Booth #: 30

Category: Cutting-Edge Products for Construction

Bio: Irving Equipment specializes in Heavy Lift, Rigging & Transportation. For 60 years Irving Equipment has been setting the standard in all construction segments with its commitment to provide industry leading solutions driven by innovation & technology.

Lake City

Booth #: 5

Category: Innovative Projects

Bio: LakeCity Works has been providing employment support to people living with mental illness for over 35 years. We produce high quality, solid wood products for both residential and commercial purposes.

Makita Canada Inc.

Booth #: 18

Category: Tools

Bio: Makita is a leader in power tool and cordless power tool technology. Now boasting over 200 tools and accessories using the same 18V battery.

MNP

Booth #: 2

Category: Innovation and Technology Funding

Bio: MNP is a leading national accounting, tax and business consulting firm in Canada. For 60 years, MNP has proudly served and responded to the needs of our clients in the public, private and not-for-profit sectors.

MRE Group

Booth #: 25

Category: Specialized Products

Bio: 100% Atlantic Canadian owned and operated company with a 25+ years of specialized product application experience. Among other specialties, we take pride in providing leading edge products for air quality, dust control and process applications.

Nova Scotia Apprenticeship Agency

Booth #: 37

Category: Industry Program

Bio: The Nova Scotia Apprenticeship Agency is an industry-led, regulatory authority for the designated trades in Nova Scotia and is responsible for high quality post-secondary training that leads to certification.

NRC-IRAP

Booth #: 17

Category: Innovation and Technology Funding

Bio: The NRC IRAP provides advisory services and funding to small and medium-sized companies, at all stages of the innovation process and across all industry sectors, to help build their innovation capacity and successfully take their ideas to market.

NSCC - Alumni Relations and Trades & Tech

Booth #: 20

Category: Innovative Projects

Bio: NSCC's Pilikan House - This innovative house is a "living lab" and demonstration site where the next generation of residential construction professionals can learn how to incorporate sustainability into their work.

PlanGrid

Booth #: 57

Category: Construction Management/Project Management Tools

Bio: PlanGrid is construction productivity software used on more than 1 Million projects around the world. It allows teams to collaborate effectively with access to an intelligent record set on any device, streamlining construction, turnover and operations

Poly-Mor Canada Inc.

Booth #: 52

Category: Longer Life Materials

Bio: Poly-Mor uses a number of expanding polymer resin systems to: (a) fill voids; (b) lift settled concrete slab-on-grade structures; (c) stabilize base soils at depth; (d) lift/stabilize settled foundations; (e) leak-seal; (f) insulated structural reinforced bases applied over perma-frost and other weak soils; (g) polymer piles; and (h) retro-fitting hollow core block walls to strengthen them against seismic activity. Our technology is fast, clean, efficient, and cost effective. Poly-Mor offices are located from Vancouver to Halifax.

Pomerleau Inc.

Booth #: 46

Category: Construction Management/Project Management Tools

Bio: Pomerleau is one of Canada's leading construction companies which specializes in buildings, infrastructure and civil engineering. Founded more than 50 years ago, the company operates through 9 regional offices and on more than 150 worksites.

Procore Technologies

Booth #: 8

Category: Connected Job Sites/Cloud Technology/Mobile Applications

Bio: At Procore we are building the software that builds the world. Procore's universal platform connects your team, applications, and devices in one centralized hub. From bidding to closeout, collaborate in real time with all your teams, on any device.

ProTech Building Safety Systems

Booth #: 23

Category: Smart Construction

Bio: ProTech Building Safety Systems specializes in turn-key solutions for safely accessing elevated work areas. We engineer, install, inspect and maintain these systems to provide safe access for suspended equipment, fall arrest and rope access.

Public Services and Procurement Canada

Booth #: 6

Category: Innovation and Technology Funding

Bio: The Office of Small and Medium Enterprises is responsible for providing information and advice to small and medium enterprises interested in doing business with the federal government & helping reduce competition barriers these firms might encounter.

rcs construction

Booth #: 13

Category: Smart Construction

Bio: We are a leading general contractor operating out of the Atlantic Region. We deliver exceptional results by being passionate about the work we do for our clients and having an unwavering focus on our people.

Safety Services

Booth #: 56

Category: Safety/Security

Bio: Since 1958, Safety Services Nova Scotia has pioneered safety education and training programs that have improved the quality of life for Nova Scotians. SSNS is proud to be one of seven organizations approved by the WCB to provide Safety Certified.

Sayle Safety Inc.

Booth #: 11

Category: Connected Job Sites/Cloud Technology/Mobile Applications

Bio: Safety has always been a paper-driven process. But what if, instead of being driven by paper, safety was shaped by people? At SayleSafety Inc., we revolutionize safety by digitizing it, with the SayleSafety app. We are Sayle. Safety shaped by people.

Schreder Inc

Booth #: 19

Category: Specialized Products

Bio: Schröder is a world leader in manufacturing outdoor commercial LED lighting present in more than 35 countries. Our products are used by cities and municipalities for roads, parks, sport field, parking etc.

Scotia Metal Products

Booth #: 24

Category: Longer Life Materials

Bio: Scotia Metal Products manufactures sheet metal roofing and siding locally in Nova Scotia. Metal roofing provides a long-lasting, energy efficient and aesthetic alternative to traditional forms of roofing material.

SDMM

Booth #: 50

Category: Drones/Scanning

Bio: We are Land Surveyors, Consulting (Civil-Municipal) Engineers, and Reality Capture & Computing Specialists delivering infrastructure design solutions, land survey expertise, and BIM-ready 2d & 3d building documentation for the AECO industry.

SITECH QM

Booth #: 55

Category: Cutting-Edge Products for Construction

Bio: SITECH® is a global distribution network for Trimble solutions, the most reliable and rugged mining and construction technology systems available to the heavy civil construction contractor, Mining Companies and Large-scale Hydro, Road & Rail Contract.

Skills Canada - Nova Scotia

Booth #: 59

Category: Skilled Trades and Technologies

Bio: Skills Canada - Nova Scotia (SCNS) is a not-for-profit organization celebrating 20 years of discovery, exploration, and excellence in skilled trades and technologies. We provide Nova Scotian youth with exciting programs such as interactive presentations, essential skills challenges, career

exploration events, disability services workshops and our signature event, the Nova Scotia Skills Competition.

Smarter Spaces

Booth #: 21

Category: Drones/Scanning

Bio: Smarter Spaces strives to be a leading catalyst in digitizing the world. To borrow from Steve Jobs, not only do we want "to put a dent in the universe," but to digitize it and make the world a safer place.

SolidCAD

Booth #: 26

Category: Building Information Modeling (BIM)/Design Tools

Bio: For over 28 years SolidCAD has operated as one of the leading Autodesk Platinum Partners in Canada. We employ the largest team of industry technology experts across Canada, in all time zones and both official languages.

Sonim Technologies

Booth #: 41

Category: Connected Job Sites/Cloud Technology/Mobile Applications

Bio: Bell PTT combines the safety and efficiency of 2-way radio with the power of Bell's extensive LTE network. Add the most rugged devices in the world, the Sonim XP series, PTT is a reliable voice solution to meet construction's demanding needs.

Tarp Rite Inc

Booth #: 39

Category: Innovative Projects

Bio: We offer Engineered Stamped Drawings for our larger structures with complete fabrication facilities in New Brunswick, trained building installers throughout Atlantic Canada. Many color choices are available for tension fabric buildings.

Trinity Energy Group

Booth #: 43

Category: Smart Construction

Bio: For over a decade, Trinity Energy Group has been an industry leader in the energy efficiency sector of Atlantic Canada. The ULC Accredited company are Nova Scotia's premier building envelope & firestop experts. Proud members of FCIA, CUFA, & CANS.

Trompe L'oeil Studios Inc

Booth #: 58

Category: Specialized Products

Bio: Specializing in beautiful high-end decorator finishes. Hand-applied finishes include Graining, Marbling, Liquid Metal, Gilding, Italian Plaster, Canvas Art, Murals, etc. Meeting the highest standards on every project.

United Rentals

Booth #: 33

Category: Smart Construction

Bio: Since consolidating in 1997, United Rentals has become the world's leader in construction rental equipment & has locations across all Canadian provinces & most US states. Customer service & safety is ingrained into our culture.

VistaCare Communications

Booth #: 12

Category: Safety/Security

Bio: VistaCare Communications is a leading communication, ProAV, security and life-safety integrator based out of Bedford, Nova Scotia. With extensive experience in outside plant construction, fibre optics, security and communications solutions.

WebWSIT Limited

Booth #: 44

Category: Safety/Security

Bio: InFuse Online is designed, developed and delivered directly by WebWSIT Limited, a Canadian company serving all provinces and territories. We specialize in cloud-based solutions for Occupational Health & Safety Compliance and HR functionality.

Wilsons Security

Booth #: 45

Category: Safety/Security

Bio: Wilsons Security provides professional, timely and cost effective service across Canada. Businesses from small to large trust Wilsons as their security and fire safety service provider. Contact us to set up a consultation today.
