Duncan Williams, President
Construction Association of Nova Scotia
134 Eileen Stubbs Ave, Unit 103
Dartmouth, NS B3B 0A9

Dear Duncan,

On behalf of the Canadian Construction Association (CCA) and award sponsor Travelers, congratulations to the Construction Association of Nova Scotia (CANS) on being named the recipient of the CCA Gold Seal Association Award. It is a pleasure to recognize the outstanding contributions that CCA partner association CANS has made to supporting and promoting the Gold Seal program.

Ensuring that your entire course catalogue is Gold Seal certified offers applicants the ability to receive the credits they need to challenge the exam. Enabling applicants to achieve their designation more efficiently through personal assessments and customizable training programs provides an extra touch that I am certain your members appreciate.

It was also pleased to learn about your CANS Gold Seal Award of Excellence Bursary. Asking students entering their second year in the NSCC Construction Management Technology program to demonstrate how they plan to commit to continuing education, professionalism and ethical thinking once they enter the workforce, is the first step to instilling the level of professionalism that Gold Seal certified individuals display and encourages an interest in the program as they begin their careers in construction.

Sincerely,

A handwritten signature in blue ink, appearing to read 'JPW', written over a light blue horizontal line.

Joe Wrobel
CCA Chair
